IACUC Policies and Guidelines

IACUC is an Institutional Animal Care and Use Committee. IACUC’s are mandated by two different federal laws, the Animal Welfare Act [1]and the Health Research Extension Act [2].

Policy and Procedure Manual Sections Relating to IACUC

- Section 290-30 [3] Use and Care of Animals in Teaching and Research
- Section 290-25 [4] Health Services for Individuals Having Animal Contact

Background

These statements of policy address areas in which federal laws or the guidelines of granting agencies are somewhat unclear. The IACUC has tried to create a clear statement of policy in these areas to help researchers understand what is expected of them and to make certain that all researchers are treated equitably.

IACUC Policies and Guidelines

- Administrative Protocol Amendments [6] (Updated 2-7-2013)
- Adoption of Animals Used in Research and Teaching [7] (Updated 11-15-2012)
- Animal Care and Use Occupational Health Program [9] (Updated 8-22-2013)
- Collecting Tissue for Genotyping and Identifying Purpose Bred Mice and Rats [13] (Updated 12-17-2015)
- Expired Drugs and Medical Materials [16] (Updated 2-11-2016)
- Facility Inspection Program [17] (Updated 9-20-2012)
- Fluids Shelf Life and Use Policy [18] (New 7-2-15)
- Guidelines for Euthanasia of Research and Teaching Animals [19] (Updated 2-25-2016)
- Guidelines for the Changes in the Use of Therapeutic Drugs on Protocols [20] (Updated 4-07-2016)
- Humane Endpoints for Laboratory Animals [21] (Updated 2-11-2016)
- IACUC Charge [22] (Updated 4-07-2016)
- IACUC Records Retention Policy [23] (Updated 11-15-2012)
- Laboratory/Study Area Inspection Program [24] (Updated 2-23-2012)
- Laboratory Housing for Research Animals [25] (Updated 12-17-2015)
- Monoclonal Antibody Production in Mice [26] (Updated 5-03-2012)
- Non-Pharmaceutical Grade Sodium Pentobarbital [27] (Updated 3-10-2016)
- Numbers Rationale for Animals in Protocols [28] (Updated 1-28-2016)
- Personal Protective Equipment (PPE) When Working with Animals in Investigator Laboratories and Related Facilities [29] (Updated 1-28-2016)
- Post Approval Monitoring Program [30] (Updated 1-10-2013)
- Protocol and Amendment Review Process [31] (Updated 10-08-2015)
- Protocol Suspension [33] (Updated 11-05-2015)
- Scientist-in-Charge and Technician-in-Charge Roles and Responsibilities [34] (Updated 1-14-2016)
- Social Housing of Social Species [35](Added 8-8-2013)
- Survival Surgery Guidelines in Rodents [36] (Updated 05-07-2015)
- The Use of Prolonged Physical Restraint in Non-sedated Research and Teaching Animals [37] (Updated 5-16-2013)
- Training Requirements for Personnel Exposed to Live, Vertebrate Animals [38] (Updated 5-16-2013)
- Training Responsibilities by Principal Investigators [39] (SafetyNet 116) (Updated 4-18-2013)
- Transporting Rodents to and from Research Laboratories [40] (Updated 5-16-2013)
- Trials in Non-University Owned Animals [41] (Updated 9-19-2013)
- UC Davis Animal Care Program Incident and Emergency Reporting Policy [42] (Updated 1-10-2013)
- Use of Davis Animal Facilities by Faculty of Other Institutions [43] (Updated 2-11-2016)
- Use of Non-Pharmaceutical-Grade Compounds in Animals [44] (Updated 5-30-2013)
- Use of Radios and Other Sound Generating Devices in the Vivaria [45](Updated 3-7-2013)
- Veterinarian-Researchers Providing Veterinary Care for Teaching and Research Animals [46] (Updated 12-14-2012)
Xenopus Oocyte Harvesting [47] (Updated 3-24-2016)
