

UC Davis' 4-Step PPE Process

The following four steps are to be completed when

- 1) A new laboratory worker starts, and/or
- 2) Hazards or processes change

1

Principal Investigators (PI)

Use the Laboratory Hazard Assessment Tool (LHAT) to:

- Create lab groups
- Assess workplace hazards to determine PPE to be used
- Invite lab staff and approve lab worker association
- *Assign a delegate or designee to perform these actions (optional)*

Documented in LHAT

2

Lab Worker

Use LHAT to:

- Identify with a lab group
- Review hazard assessment
- Complete the Outfit for Safety Training and quiz
- Print a PPE voucher
- Go to Step 3
