Assessment

The new way to complete your laboratory hazard assessment!

*Beginning on August 5th LHAT will become Assessment.*

Assessment is the new and enhanced version of LHAT, an online safety solution intended to identify and communicate hazards present in a lab or research area to prevent workplace illness and injuries. It offers the ability to easily maintain hazard assessments, determine personal protective equipment (PPE) needs and maintains training records required to help ensure that lab members are properly protected.

**LHAT will be retired on Aug. 2 at 4 p.m.**
Beginning on August 5, at 6 a.m., LHAT will become Assessment, an upgraded safety solution used to manage the lab hazard assessment process. There’s a new look and feel that makes it easier to complete and update your hazard assessment, lab roster and more!

**Principal Investigator (PI) and/or lab contact (delegate) can:**
- Identify/assign members to a lab group
- Determine hazards that are present in the lab through a set of guided questions
- Easily communicate laboratory hazards to lab roster
- Identify the proper PPE to be used based on the hazard assessment results
- Recertify assessments when changes are needed

**Lab members can:**
- View potential hazards present in the lab through the assessment
- Receive a list of proper PPE to be used in your lab setting
- Receive training and demonstrate understanding of the training on the selected PPE for your lab

*Log in to Assessment at: ehs.ucop.edu/* [1]
Training

Webinar trainings will provide information on creating, amending, certifying assessments, PPE management and EHS functionality. This training is meant for Safety Coordinators and other staff who work with PIs and lab members, to help manage the lab hazard assessment process. Register for your preferred session via Zoom[2].

- Tuesday, July 23 at 10 a.m.
- Wednesday, July 24 at 10 a.m.
- Thursday, July 25 at 1 p.m.
- Wednesday, July 31 at 10 a.m.
- Thursday, August 1 at 1 p.m.
- Friday, August 2 at 10 a.m.
